

IMPORTANT NOTE!!!

My *French Campaign, 1940-45* is designed for the Builders Paradise equipment file (the latest version is 1.02.11) **HOWEVER** due to some changes made in the most recent “unofficial” PG2 patches you will have problems if you use the standard equipment file (specifically, you will not be able to buy trucks for most of the campaign).

I have included a version of the equipment file (v1.02.11.a) with this campaign download that fixes this problem... Please use it!
